We have all moved into the 21st century--all except the taxi companies now crying "foul" because they want to continue their same old practices and poor service system.

Work with Uber and Lyft and keep ride availability at the highest levels here in South Carolina.

I am emailing to voice my concerns about making uber illegal in the state of South Carolina. I feel that these uber rides help make the roads a safer place for people. These uber rides provide a safe and affordable way for people who have had one too many to drink a safe way home that is quick and easy. I know what you're thinking just call a cab I've done that on a Saturday night and cabs are so high in demand that one wouldn't be available for an hour. I thought this was ridiculous to me. In all if uber is made illegal in the state of South Carolina it would send a message to all it's residents that the state doesn't care about its citizens safety and that South Carolina still has regressive state of mind. I love South Carolina this is my home and having uber around made it that much better and progressive.

Good Evening,

Although not a resident of your state, I visit often and prior to the arrival of Uber, my only Charleston airport options were a shuttle with several other people, where I'm forced to sit through numerous stops before getting to my hotel, or waiting 30 minutes for a taxi cab. Even trying to get cabs at my hotel took over 30 minutes. When I arrived this last August and found Uber was finally available, I was so excited. I now only had to wait a few minutes for a ride and the cost was considerably less compared to a taxi. Uber drivers are always incredibly friendly, their vehicles are always clean, and I always feel safe, which is important to me since I travel alone for work. I always recommend their services because they truly offer a far superior service compared to taxis. Please allow Uber back into your wonderful state.

Kind Regards,

Jessica Taylor
